PLANNING COMMISSION

Rezoning 1:

642 King St & 54 Line St (Peninsula)

BACKGROUND

The applicant is requesting rezoning of the property from General Business (GB) and Light Industrial (LI) to Mixed-Use/Workforce Housing (MU-2/WH). The subject properties are located on the north side of Line Street between King Street and Meeting Street and adjacent to the ramp from the Septima Clark Parkway onto Interstate 26. The properties are small but if combined with adjacent, similarly-zoned, properties they have the potential for urban infill development. The subject properties are surrounded by Mixed-Use/Workforce Housing (MU-2/WH) zoning and General Business (GB) zoning. Much of this urban block has already been rezoned to MU-2/WH in recent years and months.

Surrounding uses vary widely as there are a blend of historic and modern uses and buildings in the immediate area. Existing surrounding uses include the nearby abandoned railroad, mini-storage, the Post and Courier offices and presses, restaurants, single and multi-family homes, surface parking lots and large and small vacant lots. The new mixed-use Courier Square development is nearby. The subject properties are vacant. The proposed Lowcountry Lowline is immediately adjacent to the east.

The Mixed-Use/Workforce Housing (MU-2/WH) zoning district allows for a mix of uses that incorporates housing opportunities for persons of varying means and incomes, along with complementary nonresidential uses. The permitted uses in MU-2/WH are the same as those allowed in GB.

CENTURY V CITY PLAN RECOMMENDATIONS

The Century V Plan encourages appropriate infill development within already urbanized areas. The Century V Plan map indicates the subject property is within an area designated as Urban Core. The Urban Core is the densest, most mixed-use portion of the City generally comprised of the central business district. The area of the peninsula surrounding the subject properties consists of a wide variety of appropriate urban uses and building types thus the MU-2/WH zone district is appropriate for these properties.

Rezoning 3:
1150 Folly Rd
(James Island)

BACKGROUND

The applicant is requesting rezoning from Residential Office (RO) to Commercial Transitional (CT). The subject property, located on the east side of Folly Road near Shandon Street, is surrounded by RO, Limited Business (LB), General Office (GO) and Single-Family Residential (SR-1) zonings in the City and Single-Family Residential (RSL) zoning in the Town of James Island. The subject property is surrounded by single-family homes on the east side of Folly Road and a retail strip center containing shops, restaurants and offices immediately across Folly Road. The subject property currently contains a single-family residential building.

The section of Folly Road where the subject property is situated contains mostly single-family homes on the east side and suburban retail development on the west side. The proposed CT zoning allows many commercial uses including office, restaurant and retail, but the hours of operation are restricted and the sizes of buildings are limited. Most commercial outdoor activities are not permitted in the CT district.

All the commercial properties fronting on Folly Road in this area (including the subject property) are in the Folly Road Overlay Zone which further restricts some commercial uses and residential densities.

CENTURY V CITY PLAN RECOMMENDATIONS

The Century V Plan recommends maintaining the character of established areas in the City when considering the zoning of property. The Century V Plan indicates the area in which the subject property lies to be Highway District which is characterized by a wide variety of mostly commercial uses typical of those found on major suburban roadways. Given the surrounding zoning and character of the neighborhood, the requested CT zoning is appropriate for this location.

CENTURY V CITY PLAN RECOMMENDATIONS

The Century V Plan recommends maintaining the character of established areas in the City when considering the zoning of property. The subject properties are designated in the Century V Plan as Suburban which are predominately residential but often contains a mix of uses compatible with suburban residential development. Residential densities range from 4 to 8 units per acre in Suburban designated areas. Given the existing zonings and existing pattern of development in the surrounding area the proposed zonings are appropriate for this site.
